

Amendments to the Specification:

Please replace paragraph [001], as previously amended on June 12, 2006, with the following redlined paragraph:

This application is a Continuation-in-Part of U.S. Patent Application No. 09/781,679, for "Video Distribution System," filed February 12, 2001, and is a Continuation-in-Part of U.S. Patent Application No. 09/781,680, for "Video Distribution System," filed February 12, 2001, both of which are assigned to the assignee of the present application. The disclosures of the aforementioned U.S. patent applications are hereby expressly incorporated herein by reference.

Because amendments made to paragraph [002] thus far are unclear, Applicants respectfully request that all previous amendments to paragraph [002] be withdrawn, and that paragraph [002] as filed be replaced with the following redlined paragraph:

This application claims ~~priority to the benefit under 35 U.S.C. § 119(e) of U.S. Provisional Application~~, Application Serial No. 60/326,563, for "System and ~~method~~ Method for Ultrahigh Reliability, High Density, Short Wavelength Laser Read and Write Data Storage System With Content Protection," filed ~~September 28~~ October 2, 2001, the contents of which are expressly incorporated herein by reference.

Because amendments made to paragraph [003] thus far are unclear, Applicants respectfully request that all previous amendments to paragraph [003] be withdrawn, and that paragraph [003] as filed be replaced with the following redlined paragraph:

This ~~Application~~ application further claims ~~priority to the benefit under 35 U.S.C. § 119(e) of U.S. Provisional Application~~, Application Serial No. ~~TBA~~ 60/347,440, for "System and Method for Optically Altered DVD (DVDO™)," filed November 7, 2001 (~~Reference number WT-25~~), the contents of which are expressly incorporated herein by reference.

Please replace paragraph [004], as amended in the Preliminary Amendment dated September 16, 2002, with the following redlined paragraph:

This application further claims the benefit under 35 U.S.C. § 119(e) of U.S. Provisional Application Serial No. 60/322,186₂ for “Ultrahigh Reliability, High Density Read and Write Data Storage System,” filed September 14, 2001 (~~Reference number WT19-Prev~~), the contents of which are expressly incorporated herein by reference.

Please replace paragraph [005] , as amended in the Preliminary Amendment dated September 16, 2002, with the following redlined paragraph:

This application further claims the benefit under 35 U.S.C. § 119(e) of U.S. Provisional Application Serial No. 60/325,888₂ for “System and Method for Ultrahigh Reliability, High Density, Short Wavelength Laser Read and Write Data Storage System ~~With~~ with Content Protection,” filed September 28, 2001 (~~Reference number WT-22~~), the contents of which are expressly incorporated herein by reference.

Applicants respectfully request that the amendments to paragraph [006], as set out in the amendment dated October 28, 2008, be withdrawn, and that paragraph [006] , as amended in the Preliminary Amendment dated September 16, 2002, be replaced with the following redlined paragraph:

This application further claims the benefit under 35 U.S.C. § 119(e) of U.S. Provisional Application Serial No. 60/322,187, for “System and Method for Content Delivery,” filed September 14, 2001 (~~Reference number WT-20~~).

Please replace the paragraph added after paragraph [006] in the Preliminary Amendment dated September 16, 2002, with the following redlined paragraph:

DOCKET NO.: **OO-0070
Application No.: 10/035,172
Office Action Dated: August 17, 2009

PATENT

This application further claims the benefit under 35 U.S.C. § 119(e) of U.S. Provisional Application Serial No. 60/328,606, for “System and Method for Optically Altered DVD (DVDO™),” filed October 11, 2001 (~~Reference number WT-24~~).
